

U11 Director Report

This was my first year on the board of directors. I was the director of the u11 division. It was all new to me.

At the beginning I was trying to figure things out and how everything worked, especially with covid on top of everything. We had parents and players that were great about the whole thing and following the rules. Unfortunately we had others that did not want to follow the rules which made the job even harder for myself and all the volunteers that were just trying to keep the players on the ice. After talking with managers and coaches dealing with a lot of issues daily we all managed to help each other get through the whole pandemic time frame and had what I believe was a pretty successful season.

At some point we had our highs and lows as teams not being able to have ice time as most of the team had covid symptoms or had to self monitor, or could not travel. We had parents that were not allowed in the buildings so they were stuck standing outside the area watching their children through the window. Sadly, the door checker and managers took the brunt of the anger from people.

I want to thank Nick Lal for stepping up to be our u11 Coordinator. He did a great job right from the start. I would also like to thank every coach, manager, hockey safety person, all the volunteers that stepped up to help score keep and run the clock, all the people that put in the time to be covid door checkers, dressing room helpers and to everyone else that played a big part in keeping the players safe and on the ice. All did the best as we could to have the safest season we could. We could not have done it without you all.

Thank you to each and everyone that stepped up and helped have a great season and help me be a better director.

Thank you
